

GNU/LINUX logo and logotype designed by Vladimir Tovic

DESCRIPTION

GNU/LINUX logo represents penguin footprint and gnu horn on it. GNU/LINUX logotype consists of the word LiNUNIX with the dot on the letter "i" modified into capital letter "G". Logotype fonts were redesigned on the basis of Dosis Family font, designed by Edgar Tolentino, refined & extended by Pablo Impallari (www.impallari.com), spaced & kerned by Iginio Marini (www.iginomarini.com). Logo and logotype were created with Inkscape™ (www.inkscape.com).
